For physical events, 18.4 million square metres of rented space were registered - UFI estimates that those certified events present in this report represents, in 2022, around 47% of the European exhibition market in terms of net space rented – and the breakdown of those events by industry sector (provided by each partner) is presented in the table on the right. As 6% of all events had more than one industry sector mentioned, the cumulated % of the number of events reaches 108%.

## UFI MESSAGE

UFI, the Global Association of the Exhibition Industry is happy to present the thirteenth edition of this report.

As mentioned earlier, the scope of this edition is reduced compared to previous years due to the impact of the COVID-19 pandemic, with less countries covered, while the inclusion of hybrid events was made possible for the second time.

Due to the different levels of development and global diversity, methods may vary slightly from country to country but all the national bodies who have taken part in this study guarantee the quality of the statistics they have provided. Those statistics relate, since the 2012 edition of this report, to certified data, in addition to audited data.

UFI strongly believes that auditing should, wherever possible, be done in a consistent manner to make figures comparable and audited events are identified as such in this report with the name of the auditor.

UFI continues to play an important role in developing a basic minimum standard for the industry including the publication and implementation of "[UFI's Auditing Rules for UFI Approved Events](#)". The latter are identified in the report (\*). Since 2021, those rules include definitions of digital and hybrid events.

If you have any questions or comments, please contact [research@ufi.org](mailto:research@ufi.org).

Paris, November 2023

**Kai Hattendorf**  
UFI Managing Director / CEO

(\* ) The "UFI Approved Event" label is given to exhibitions organized by UFI members after a quality assessment. In 2023, UFI approves more than 970 events.

UFI's main goal is to represent, promote and support the business interests of its members and the exhibition industry. UFI directly represents around 50,000 exhibition industry employees globally, and also works closely with its 69 national and regional associations members. More than 800 member organisations in 86 countries and regions around the world are presently signed up as members.

More than 970 international trade fairs proudly bear the UFI approved label, a quality guarantee for visitors and exhibitors alike.

UFI members continue to provide the international business community with a unique marketing media aimed at developing outstanding face-to-face business opportunities.

## AFE

### Spanish Trade Fair Association (Spain)

#### Space

The exhibition space is divided into indoor and outdoor areas and it is also divided into Spanish and foreign exhibitors. Special exhibitions (other participations) include special exhibitions and demonstrations related to the theme of the exhibition but it is independent of the exhibitors' area. All those figures are considered as net exhibition space.

#### Exhibitors

Direct exhibitors: Exhibitors who occupy their own stands and receive and pay directly the invoices of the organiser of the exhibition. Indirect exhibitors (or represented firms): Exhibitors who do not have their own stands but present their products in stands of direct exhibitors. In the case of collective or grouped participation, the different exhibitors are considered direct when they occupy an area of at least 9 m<sup>2</sup>. Exhibitors occupying less than 9 m<sup>2</sup> are considered indirect.

#### Visitors

Identified visitors: number of visitors (visits) who go into the exhibition and whose data are managed and kept by the organiser. Other tickets: these figures include sold tickets and controlled invitations that allow the access to the exhibition and their use can be verified. Total visitors are the identified visitors plus other tickets.

## BDO & Associados

### (Portugal)

#### Space

The total rented space includes both hall space and open-air space contracted by the exhibitors, whether it is paid or unpaid, and it corresponds to the number of square meters effectively occupied by them.

The rented space is divided into national and foreign in accordance with the exhibitor classification.

#### Exhibitors

The main exhibitor is the entity contracting directly with the organiser. Co-exhibitor is the entity which presents its products/services on the main exhibitor's stand with its own staff.

A represented company is one who is not present with their own staff, and whose products or services are present on a main exhibitor's or co-exhibitor's stand. These represented companies are excluded from the calculation of the total number of exhibitors.

#### Visitors

Any person entering the fair/trade show during its official opening hours who presents at control access either a ticket or a card proving payment on the entrance fee or an invitation card is considered as visitor. Visitors exclude the staff of exhibitors, services providers and organisers.

The visitor whose address is located in another European or Third country is considered as foreign visitor.

An additional visit, to be verified as made on a different day from the first visit is considered as a repeat visit.

The figures presented in the Euro Fair Statistics brochure concern the number of total visits: total number of visitors plus the total number of repeat visits.

## CENTREX

### (Bulgaria, Czech Republic, Hungary and Poland)

#### Space

The rented space is divided up in hall space and open-air space which is rented / contracted by exhibitors.

A represented firm (indirect exhibitor) is one who does not have a stand of his own, but presents his products on a stand of a direct exhibitor. Co-exhibitors at an exhibitor's stand or participants at a collective stand are also considered as exhibitors for statistical purposes if they exhibit their own goods employing their own personnel on the exhibitor's stand or at a common stand organised by a collective stand organiser and their autonomy can be undoubtedly recognized even without physical separation. These companies are considered as exhibitors regardless that the invoice is being issued on the exhibitor or on a collective stand organiser. The nature of the participation and the identity of each exhibitor at the stand should be very clear from the application form sent to the exhibition organiser.

Nationality of the exhibitor/co-exhibitor: foreign exhibitors and multinational companies are integrated under heading as international exhibitors (as well as space).

#### Visitors

The number of visitors is calculated on evidence. The number of paying visitors is established through financial evidence: number of sold tickets (prepaid or on the spot) and number of tickets/entry passes paid by the exhibitor or a third party. Visitors with paid passes for a given period are calculated on the basis of a financially reasonable minimum number of uses of the pass, 4 visitors are counted for each family ticket sold. For persons arriving with vouchers, registration cards or similar valid free passes, tickets can be counted as visitors only if evidence is available.

The number of foreign visitors is established either by tickets sold through special pre-registration means, or filled in-registration cards with evidence of the foreign origin of the visitor or through representative visitor surveys.

### Visitors

The visitor figures are calculated according to the number of entries to the trade fair centre. The number of entries per day can, on the one hand, be determined by an electronic visitor admission system, whereby a maximum of one entry is registered per day.

The attendance figure is calculated by counting the number of admissions to the exhibition grounds. The number of admissions per day can for example be determined by using an electronic entry monitoring system; admission of a visitor shall be counted a maximum of once per day.

Organisers who do not employ electronic entry monitoring systems must supply proof of admission by retaining the ticket counterfoils or through registrations. The counterfoils of tickets sold by the ticket offices need not be retained as the takings of the ticket offices shall serve as proof.
